

CAREERS FOR THE **CURIOUS**

POSITION TITLE

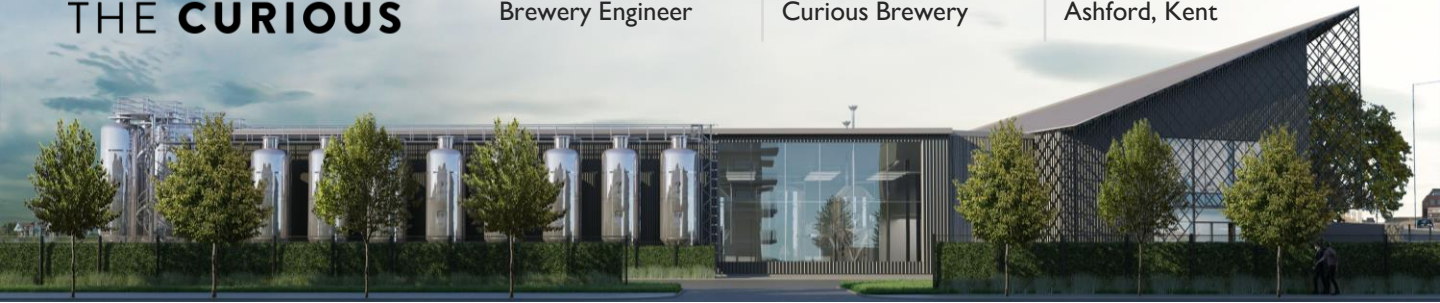

Brewery Engineer

COMPANY

Curious Brewery

ROLE BASE

Ashford, Kent

WHO ARE WE?

We are The Curious Brewery. Where flavour and passion comes first. We believe in trying to create things that others can't.

Our reason for being is to inspire people to stay curious. To question. To celebrate. To smile more. And to never graduate from the school of life. We decided to make the best tasting beer and cider, using just the best quality ingredients and our skill as England's leading winemakers.

The Curious Brewery was established in 2011 and is part of one of the UK's most exciting drinks companies and leading winemaker, Chapel Down.

WHO ARE YOU?

You should have a college degree in Mechanical or Electrical Engineering.

You should have experience in a food manufacturing or similar environment

You should be result focused with an eye for problem solving and process improvement.

But most importantly.....You should be passionate about Beer, be inspired to challenge the norm and dedicated to supporting a team that want to change the way that people drink & think about Beer!

KEY RESPONSIBILITIES

Brewing Operations

- Responsible for repairing technical issues from Raw Materials Handling through to Packaging.
- Develop Routine & Preventative maintenance schedules, liaising with Brewery Planner to ensure impact to production is limited.
- Manage spare part stocks and develop criticality matrix to ensure a good balance between performance and cost efficiency is achieved.
- Develop, design & integrate new Brewing technologies into the production line.
- Manage & support key Capex/Opex initiatives, ensuring OTIF delivery
- Develop SOP's and support training of Brewing/Packaging operatives to carry out basic maintenance tasks.
- Support key performance improvement initiatives such as packaging line efficiency.
- Gain process knowledge of Brewing processes through on and offsite training

Environment, Health & Safety and Quality Processes

- Comply to ES, Quality and HACCP standards.
- Address safety concerns and incidents within the department.
- Promote safe working practices and ensure safe systems of work are in place.
- Ensure compliance with all company and legal obligations and help to create SOP's
- Take ownership for adherence to processes within each area e.g. SLA's

Control of Cost, Budget and Resources

- Share accountability in the maintenance and loss cost performance across the department
- Ensure cost optimisation across all areas of the department

To apply please send your **CV & Cover Letter to: matta@curiousbrewery.com**

ARE YOU CURIOUS BY NATURE?
